Town Warrant

STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of Peterborough in the
County of Hillsborough in said State, qualified to vote
in Town Affairs:*

You are hereby notified to meet at the Town House in said Town on Tuesday, the tenth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary for the maintenance of the poor, for the laying out and repairing of highways, and all other charges arising within the Town and appropriate the same.
3. To raise and appropriate such sums of money as may be necessary for the support of the Fire Department, the Public Library, and for Memorial Day.
4. To see what sum of money the Town will vote to raise and appropriate towards paying the Town debt and interest.
5. To hear the reports of agents, auditors, committees, or officers heretofore chosen, and to pass any vote relating thereto.
6. To see if the Town will vote to instruct the Selectmen to appoint a police officer, or as many as may be necessary, to preserve order in and about the public places of the town, and to perform other duties as may be required by the Selectmen both day and night, and raise and appropriate money for the same.

7. To see if the Town will vote to accept legacies and gifts given to the Town in trust by any individual or individuals.

8. To see what sum of money, if any, the Town will vote to raise and appropriate to defray the expenses of Old Home Week.

9. To see what sum of money the Town will vote to raise and appropriate toward the construction of a gravel road on any portion of the Greenfield Road, or take any other action relating thereto.

10. To see if the Town will vote to construct a cement highway on Union Street, extending from the junction of Main, High and Union Streets to the Adams Playground and raise and appropriate money for the same.

11. To see if the town will vote to raise and appropriate the sum of three thousand dollars or as much of that sum as may be necessary for the extension of water pipe up Parker Street in West Peterborough, or the so called Dublin road, beginning at a point determined by the water commissioners, and running south, or take any other action in relation thereto.

12. To transact any other business that may legally come before said Meeting.

Given under our hands and seal this Twenty-first day of February, in the year of our Lord Nineteen Hundred and Thirty One.

FRED J. AMES
ARTHUR P. SMITH
MARTIN J. KEENAN
Selectmen of Peterborough

Auditors' Report

We, the undersigned Auditors of Accounts of the Town of Peterborough, N. H., hereby certify that we have carefully examined the foregoing accounts of the officers, committees, and others having charge of monies for the year ending January 31, 1931, pages 398 to 433 inclusive, with the exception of the Weston Memorial Fund Account and the James Smith Fund account, respectively, and find them correctly cast and properly vouched.

MAURICE H. NICHOLS

Chief Engineer's Report

TO THE SELECTMEN OF PETERBOROUGH, N. H.

Gentlemen:

As Chief of the Fire Department, I wish to submit the following report for the year 1930.

The year 1930 has witnessed the destruction of a great deal of property by fire and as time goes on we hope to see a great improvement in the prevention of the same.

Educating people how to prevent fires would be money well spent for one thing; if girls and women are bound to smoke, they should be taught how to take care of their matches, tobacco and cigarettes, for it has been found to be a fact that women smokers are to blame for a large portion of the fires by being careless.

While the year just passed witnessed some disastrous fires in town, it was not as bad as some years passed.

The Department responded to 37 calls for help; 29 still or telephones and 8 gong alarms.

The equipment has been improved during the year by the Town purchasing a 500-gallon pumper and hose truck with 300 feet of heavy cotton rubber lined hose and 1000 feet of linen hose and through the generosity of one of our citizens, Miss Jennie S. Scott, a foamite generator and 1000 pounds foamite powder was added to the above which is to be used on gas or oil fires.

At one fire during the year the men laid 1600 feet of hose through which a good supply of water was forced by the above pump.

The Department is glad to say that in addition to the pumper we have a second new piece known as the Forest Fire Truck. This new piece is a Ford 1½ ton truck with dual rear wheels, a good generous body with a hose reel in the front and an 80 gallon booster tank in front under the hose reel. This tank is connected with a booster pump which

gets its power from the main drive shaft. This pump can be used to draw water from well, brook or pond, with a 30-foot suction hose and in addition to the above stationary equipment the truck has a Guptill Portable Pump which is capable of pushing water through 8000 feet of hose. The other equipment is 600 feet of inch and 900 feet of 1½ inch hose. This amount should be increased to about 4000 feet. Also we have Knapp Sack Sprayer hand pumps, pails, shovels and hand chemicals; also axes.

The machine to date has involved the expenditure of about \$2,800.00. After the firewards had looked into a number of trucks, it was decided that we could get more for our money at home so with the cooperation of the H. F. Nichols & Son, authorized Ford dealers, S. G. White's Sons' Garage and Kress & Son of Lawrence, the firewards were able to get together something better than what they had seen. George E. Clement and Geo. Abbott Morison collected the funds and turned it over to the fire department account of the town.

Following is a list of subscribers, who were so generous as to make it possible to make this very important addition to the local department:

Edward A. Andrews, Anonymous, Robert P. Bass, John F. Bass, Homer Bigelow, Mrs. Isabel A. Casilas, George E. Clement, A. Erland Goyette, Miss Emily Hayward, Clement Lamson, George Abbott Morison, Edward MacDowell Association, Edward M. Mackey, George S. Parker, Frederick Phillips, Miss Margaret Pierson, George D. Pushee, Fred B. Rice, B. F. W. Russell, Mrs. Mary Santerre, Mrs. William H. Schofield, Philip Sharples, Paul Winsor and Anna L. Prichard.

In addition to the equipment mentioned above, 2500 feet of 2½ inch linen hose and our usual number of ladders, 75 shovels, 60 pails, axes, lanterns and hand chemicals.

As Forest Fire Warden, I have issued 105 written and oral fire permits. This is one of the very important parts of the service, and it is up to the citizens themselves to help keep this awful loss by fire down.

Respectfully submitted,

TIMOTHY E. DRISCOLL
Chief

Report of Chief of Police

TO THE SELECTMEN OF PETERBOROUGH, N. H.

Gentlemen:

I hereby submit my report as Chief of Police from February 1, 1930 to January 31, 1931:

Arrests	14
Brought before Court	14
Drunkenness	2
Motor vehicle violations	2
Violations of liquor law	2
Larceny	8
Disturbance calls	41
Doors found open	4
Lodgers	21

Respectfully submitted,

GEORGE F. MYHAVER

Chief of Police

February 1, 1931.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

TO THE SCHOOL BOARD OF PETERBOROUGH:

You have received the following items:

(1) The Second Survey; a detailed report by the Superintendent of Schools, covering all phases of the public school system of Peterborough, N. H.

(2) The Report of Headmaster Whitney to the Superintendent of Schools. This scholarly and detailed report of all high school activities, save School Banking, merits careful attention. It contains, in addition to the Headmaster's own field of administration:

(a) A summary of the report of the Supervisor of Music to the Headmaster.

(b) A like summary from the Supervisor of Physical Education.

(c) A summary from the Directors of Athletics for Boys.

(d) A like summary of the report of the Red Cross Public Health Nurse, in her field of service to the school.

(3) The Report of the Principal of the Central School to the Superintendent of Schools. This gives the summary of achievements in grades one through six.

Because of the detailed nature of *The Second Survey* and its accompanying brochures, this report contains only a summarizing of the above mentioned papers. Data in support of comments made herein is supplied in full complete form in the Second Survey.

SUMMARY FROM SURVEY DATA DEALING WITH FINANCES

1. The taxable property of Peterborough has increased \$698,423 on inventory since 1921.

2. The tax for support of schools is 18 mills for each dollar of taxable property.

3. Costs for instruction are very low. Seventy-four of the 82 High Schools in New Hampshire have a higher per pupil cost than Peterborough.

4. Transportation costs are due to unavoidable factors. The cost per pupil per mile is, by a very small fraction, in excess of two cents.

5. At no time since 1922-23 has Peterborough stood at the midway point in cost of education per thousand dollars of equalized valuation in the list of New Hampshire School Districts. Its present position, in point of expenditure on this basis, is distinctly lower.

6. It is frequently forgotten, that \$8,000 goes each year into the retirement of bonds and the payment of interest.

7. Increased facilities and not payments for instruction have been chiefly responsible for increased costs.

8. Current costs have dropped from \$6.20 in 1922-23 for each thousand dollars of Equalized Valuation, to \$4.86 in the Elementary Schools. The Town has not been eligible for State Aid since 1927.

9. The increase for all items of school expenditures, in the last eight years, has been ninety-two cents on each one thousand dollars of equalized valuation.

10. Thirteen per cent less of the budget was expended for instruction in the last fiscal year than has been the average over an eleven year period.

11. The per cent of the budget used for all costs of administration has increased three tenths of one per cent over the last eleven year period. It is now 2.3 per cent of the total budget.

SUMMARY FROM SECOND SURVEY DATA: ENROLLMENT

1. The high school has increased its enrollment from 74 to 154 in eleven years.

2. The elementary grades have increased their enrollment from 357 to 435 in the same length of time.

3. Total enrollment increase, for the eleven year period, has been from 431 to 589.

4. There are now only about three children in the elementary schools for each pupil in the high school. Eleven years ago there were about five pupils in the grades to each pupil in the high school.

SUMMARY FROM SECOND SURVEY DATA. TUITION PUPILS

A. There are 32 tuition pupils distributed through nine grades.

Grade	No. of Tuition Pupils
1	1
2	2
3	1
5	3
7	2
9	4
10	10
11	5
12	4
<hr/>	
9	32

B. Room Survey.

(1) A detailed table of building capacity on the present basis shows no overload due to tuition pupils. Four of the high classes are absorbing an average of only 25.3 per cent of the room capacity available.

(2) Modern equipment in two rooms of the high school would increase the capacity by 50 per cent.

SUMMARY FROM SECOND SURVEY DATA:

ELEMENTARY NORMS

(1) In accordance with customary technique, to discover the degree of "carry-over" of basic education into the high school, Grade IX was included in the elementary school survey.

(2) Beyond Grade two, the norms of five grades are found to be 99 or better. The survey was taken as of the close of the first term, and leaves one per cent to be accomplished in the remaining two thirds of the year to equal 100 per cent, or full expectation.

(3) The average grade norm at the end of the first term is 93 per cent.

SUMMARY FROM SECOND SURVEY DATA: HIGH SCHOOL

(Compilation of Data by Headmaster Whitney)

(1) The Sones-Harry Test was used. This test "is the result of several years of experimental work in connection with the Annual Academic Contest of the University of Pittsburgh. It was taken by 650 students who entered" the tenth Annual Academic Contest in May, 1928. It was later given to about 750 students in a suburban high school.

(2) Peterborough High School was, therefore, competing against a highly selected group.

(3) Peterborough High School College Preparatory Divisions exceeded 84 per cent of the scores of the 1400 who took the test in Language and Literature; 91 per cent of those who took it on Mathematics; 88 per cent of those who took it, in Natural Sciences; and 88 per cent of those who took it, in Social Studies.

(4) 99.64 per cent of all pupils in Peterborough High School, Grades X, XI and XII, reached average-or-better scores.

(5) There were 320 per cent more A ratings than would have been normally expected.

"The Standard of the Peterborough High School is based on the expectation of getting all students, mentally capable, up to college syllabus standards. The guides for the teachers for The New England Entrance Examination Board requirements for various subject-content; The New Hampshire State Program of Studies; and the syllabi prepared by The Regents of New York." (Quotation from Headmaster Whitney's Report to the Superintendent of Schools.)

The Headmaster presents careful analysis of the conditions necessary to secure proper recommendation. Intelligence of too low a degree may prove too great a factor to overcome. Habits definitely established over a four year secondary school career may point to the need for preparatory school training, as may low standards of high school achievement.

The present policy is to refuse recommendations for college entrance where low intelligence and low standards of achievement have been recorded over a four year period; and to recommend with reservations where high intelligence and low standards of achievement are recorded.

Certifications are refused where subject achievement has been below 85 per cent, in any case. Preparatory School, post secondary training, is recommended where maturity is lacking, or faulty study habits have been continually observed.

Teacher rating is checked against standard college preparatory subject tests, and against college entrance examinations presented to the pupils as part of their regular studies.

The superintendent of schools desires to point with special approbation to the adoption of these standards by the headmaster, and in particular because the materials and plans as outlined above, have not always been previously in favor with less well informed headmasters. The chief duty of the headmaster is to watch over the progress of the individual pupil, thus guarding him from misrepresentation by well meaning teachers, who may conceivably be in error in their subject ratings; and who most certainly, unless they are directly in contact with college requirements, cannot possibly know the extent of subject achievement unless equipped with objective data from standard test sources.

Careful presentation of the many safeguards around the individual pupil's progress, has been shown by the headmaster in his report. In as much as the program of pupil accounting is merely the extension of the plans of supervision as outlined and used in the grades it must naturally meet with supervisory approval.

But the scholarly and detailed care, the complete and intelligent cooperation of the headmaster in carrying out supervisory plans deserve an extension of appreciation beyond that which is commonly of occurrence.

Without this cooperation the school department would have been in two sections: the grades acting upon a modern program of careful remedial treatment, with guarantee of success up to the norm; while the High School would have been maintained upon a worn out system of subjective ratings, with hit or miss recommendations for college entrance, and subsequent disheartenment of pupils.

Nearly without exception, Headmaster Whitney has received from his staff of teachers, loyal cooperation and support. For this, he courteously pays public tribute in his Report to the Superintendent of Schools.

The manual training department is under-equipped. This department, because of its pedagogical and psychological value to the adolescent should receive greater attention.

The School Library lacks adequate reference books.

Modern education demands training in the use of reference material. It is frequently of greater value to know where information can be obtained, and how to use this information when it is at hand, than to hope to retain facts which research and common observation prove are incapable of being retained because of infrequent use or lack of instant practical appreciation.

The laboratory equipment is becoming adequate due to the Board's policy of annually adding sufficient new equipment to reach a full supply in 1932-1933.

Revision of the English Department's Text Book List, to accord with the rather rapidly changing College Entrance requirements, is in process of completion. The full reading quota will be within the High School during the school year 1931 to 1932. This quota was eight years out of date in 1926 and has been a heavy financial burden in the process of rebuilding.

The Commercial Department is now adequately equipped in general. Too great popular interest has been shown throughout the country in Commercial Courses, even in fact of warnings from post-secondary schools and Commercial "colleges" of the better type.

It is refreshing to note that while only five are enrolled in the College Preparatory Division from Grade X, Grade XI enrolls fifteen.

Grade	XII	XI	X	IX

Total Registration, By Courses

College Preparatory	38
Commercial	62
General	53
Domestic Arts	6

It is to be lamented that the General Course, which points neither towards College nor elsewhere, proves so popular with parents and pupils.

Supervision has, however, in a sense "played a trick" upon pupils enrolled in the General Course; and with the able cooperation of the Headmaster it seems probable that a considerable number of these pupils will awake to a realization that actually they are eligible to college course entrance on higher levels than they established when choosing this course, and take advantage of the higher standards to which they have been unwittingly coerced.

The General Course should be, and is, dying out in the better grades of high schools. The process of extinction must, however, be delicately carried on. Too many pupils attend high schools without intention of doing their best, and in the junior and senior years come to regret their choice of an "easy" course. For this ever present group, supervision and high school administration can offer a pleasant surprise.

No pupil at present enrolled can be denied entrance to several high ranking post secondary institutions, because of subject shortage.

This has been the cause since the advent of present high school administration and its immediate adoption of supervisory suggestions in this regard.

Moreover, no pupil enrolled since the fall of 1929, can fail of securing sufficient college entrance credits, barring certain "old line institutions," if he or his parents make a change in their ideal even as late as his junior, and in certain cases, his senior year.

Six pupils have left the high school this year. We find no other local record equally high, for the time of this report.

Certain recommendations by the headmaster, supported by supervision, are herein transcribed.

1. An enlarged program for Visual Education. New Hampshire, as a whole, has been lamentably backward in adopting what is almost standard equipment in this field, for basal educational technique.

2. The economy of substituting a portable stereopticon, using map slides, to avoid heavy expenditure for expensive maps which are absolutely essential in the College Preparatory Courses. The saving would pay for the equipment in one year.

(3) Extension and enlargement of the Library facilities.

(4) Radio equipment to receive the courses in music appreciation now available and extensively used, even in rural schools; and also to offer to the pupils outstanding civic addresses. This equipment is also fast becoming standard.

(5) Further gymnasium equipment.

(6) Opaque curtains in the auditorium.

(7) Laboratory equipment for the Domestic Arts Department. The small number enrolled in the Domestic Arts course, looking to graduation solely as from that Department, is greatly augmented by pupils from other courses, and in the seventh and eighth grades. Another cooking table unit is needed.

(8) Other minor recommendations within the province of supervision to provide.

Miss McGrath, Principal of the Central School, who is also held responsible for grade liaisons with West Peterborough, to assure equal progress at that school without unnecessary duplication of text books and resulting high costs, carefully presents a series of indices showing the relative successes in the various subject branches. No subject norms are below standard. It is therefore permissible to choose a midpoint subject, History, which seriously begins presentation three years after entrance to school and continues at least three years as a "fundamental" subject, after the pupils leave her school.

On this basis the subjects arrange themselves in indices progressively upward, History, Geography, Language, Spelling, Hygiene, Arithmetic Reasoning, Reading, Arithmetic Computation, General Vocabulary knowledge. The list is a most happy progression. Supervision would prefer to have Arithmetic Computation and Arithmetic Reasoning exchange places. But the fact that reasoning is being so well developed as to be exceeded only by reading for comprehension and "abstract number" is most gratifying. It is too commonly the case that arithmetic reasoning becomes a neglected art.

Its high position is unquestionably due in large measure to the exceedingly good reading habits of the pupils. It is only within comparatively recent years that *reading to understand*, rather than *merely to pronounce* has become adequately emphasized. Yet, *reading to understand* must be the basis of success in studies and in reasoning procedures.

The principal calls attention to the fact that the classes are not too large for the teachers, and is borne out by sufficient authoritative data from nation wide surveys to be more than adequately supported.

The remedial program answers the need of the delayed student.

There is, however, plenty of evidence to prove that the super-normal children, present in a high per cent in Peterborough, in comparison to total enumeration, could benefit to a great degree by a teacher trained to care for pupils of this type who should be encouraged to fullest use of their abilities along lines of special interest. If it be the duty to fill the pint pot, the duty toward the gallon jug is clearly evident, as well.

Of all personal and professional courtesies extended by all members of the staff, the superintendent is sincerely appreciative.

(Signed)

LAWTON CHASE
Superintendent of Schools

As of January 31, 1931.

REPORT OF SCHOOL BOARD

A program for improving equipment and other physical phases of the Peterborough schools has been in progress for several years. Fortunately this program has advanced sufficiently to warrant, without serious embarrassment, curtailing certain activities and thereby enabling the schools to operate with a budget which requires no increase in taxation for schools this year. This is gratifying, due to the general inactivity in business. It should be remembered, however, that more funds are planned for the payment of the teaching staff than ever before. The present staff is highly creditable and there is an increasing amount of evidence accumulating which justifies an even higher scale of salaries for our teachers. Good teachers command good salaries regardless of state or

community. The entire teaching staff was reelected for the 1930-1931 school year except those resigning previous to April 12, 1930. The present staff and the salary rate are listed below.

SALARY SCHEDULE—1930-1931

Allen, Viola E.	Commercial Dept.	\$1,200 00
Bagley, Anna S.	Grade I	1,200 00
Benfield, Marion	Physical Education	1,450 00
Bresnahan, Dorothy	Grade VII	1,100 00
Bridey, Helen	Latin and French	1,400 00
Clark, John R.	Physical and Ath.	
	Director	1,800 00
Dyer, Florence	Household Arts	1,250 00
Hancock, Florence	Mathematics	1,400 00
Harriman, Aellene	Grade IV	1,100 00
Josie, Rena	Science	1,550 00
McGrath, Mary	Principal Center School	1,500 00
Mitchell, Ethel	Grades IV to VI—West	1,150 00
Newton, Dorothy	Grade VI	1,000 00
Nichols, Katie (Mrs.)	Grades I to III	
	Principal West	1,250 00
Parks, Alma	Music	1,250 00
Plummer, Gertrude	Grade II	1,150 00
Schaedel, Charlotte	Commercial Dept.	1,300 00
Soule, Winnifred	Grade III	1,050 00
Tobey, Alfred	Grade VIII	1,750 00
Wheaton, Lara T.	English	1,250 00
Whitney, Ralph	Headmaster	2,750 00
Wise, Katharine	Grade V	1,150 00

JANITORS

Eastman, Mrs. L. V.	West	\$162 00
Dole, Fletcher	Center	1,150 00
Davis, Charles A.	High School	1,800 00

There are a number of factors which govern the salaries paid to teachers. There is one factor beyond the control of any school board, namely, supply and demand. Some years qualified teachers are available in small numbers for certain work and in other phases large numbers are available. This market condition often affects the salary scale as much as two hundred dollars for an inexperienced teacher. However, the market phase must be met as found to exist, but if the standard Peterborough sets for hiring teachers meets, as it sometimes does, the obstacle of a small supply, then one of

two things occurs. Either more salary must be found to meet the demand or the standard for teacher employment must be lowered. Few instances are on record in Peterborough where the standard has been lowered in the past few years. Other factors considered when employing or setting the salary rate for teachers are:

1. Training. Normal School or College training for regular teachers may seem sufficient. However, when seeking a teacher for a special subject, neither of the above may suffice.

2. Experience. It requires experience in teaching, as in all activities, to determine values. Peterborough tries to secure experienced teachers and retain those whose experience proves them to be valuable in Peterborough. Were it possible to continue a program of retaining at any cost all good teachers, there would soon come a time when the standards of our schools would equal or excel any in the land. This, however, would require a financial burden too great for justification. So we see constantly good teachers leaving us for more remunerative positions. This fact requires that local maximum salaries be set for each position. This has, as yet, been done for only a few positions.

The trend in the standards of the schools is upward. This simple statement has such a broad background and demands so careful attention for the future, if it shall be maintained, that it seems an insufficient statement. The fact that the trend is upward is due in a large measure to citizen pride, generosity and cooperation. An excellent staff of teachers might be assembled and accomplish little because of inadequate funds for executing their abilities. Although Peterborough ranks in the lower half within the state for districts expending funds per pupil, she does not rank in the lower half for educational accomplishment. The objective standard in a school system that a town like Peterborough must have is adequate college and university preparation. Higher education, however, is not the objective for every boy and girl. Some are more valuable in life if they seek training in other places. The conviction of the school board is that schools will cost more in the future than in the past if advancement in education is to be accomplished. Proper balance in facilities for training or preparation is the aim. The danger lies in failing to properly adjust the available machinery to accomplish the objective. An illustration of this is the manual arts, which, at present, is wholly inadequate for a balanced school program. The Board has not

felt justified in asking, as yet, for funds sufficient to establish a creditable manual arts training. Improvement in this activity, however, is in the program. Other than this particular phase, there never has been as much money expended for the very purpose of equalizing educational opportunities for all as in the past year. Additional teachers have been added, classes have been divided to enable teachers to do more personal direction, and equipment has been improved. The High School is rapidly improving and the grades, both at the Center and West, are doing excellent work.

Physical Education for boys has been added to equalize the opportunity for boys, some of whom are not able to take part in athletics. The value of systematized exercise to the health of children needs no discussion.

The budget for 1931-32 given in detail in table form on some of the succeeding pages asks for \$2,477 less than the 1930-31 budget. It should be remembered that this budget has been prepared to cooperate in relieving present depression and cannot be allowed for more than one year without seriously affecting the program to improve the school standards.

The increased number of secondary tuition scholars assists in relieving the citizens of some of the financial burden. We are assured by the Superintendent that ample room is available to care for these scholars. It is also true that the expense would not be reduced greatly by having no tuition scholars.

Transportation expense estimates will always be but a guess. The obligation to transport scholars makes necessary this expense, and due to change in location from year to year of the scholars makes impossible accurate forecasting of the costs. There is, however, a tendency toward increased cost.

The budget has accomplished the maintenance of an excellent staff at normal rates of increase in salaries.

Citizens reading the supplementary reports will learn the needs of the schools. There is little provision made to carry out any recommendations for improvement this coming year. There is, however, a constant approach to the ideal for Peterborough, and even though ample funds were available together with every needed accessory for meeting all needs, the fact remains that time is an essential requirement to attain improvement.

Modern supervision for a time accepted whole heartedly the various mental and achievement tests as exact measurement for guidance in teaching. The tests have value, but

are not as yet correlated sufficiently in their consideration of the personal factor to be deemed a final measure. The results are interesting and helpful, but great wisdom is required in remedial application forecast by any plan of testing. Changes in the use of the tests are proving beneficial and it is only fair to state that all forms of testing for intelligence, native ability and accomplishment are still in the experimental stages. This fact indicates that great care must be used in their application.

The cooperation of the home with the schools is necessary. Peterborough has it in a high degree, but there is little merit in shouldering upon the parents the obligations for which they pay the school system.

The accomplishment of scholars will and should be charged to the school system, and no amount of parent aid or cooperation will alter the fact that all members of the school system are public servants and will attain credit only by the degree of accomplishment due to excellence in teaching.

The School Board invites the opinion of all citizens. It seeks their counsel, for all are interested in the common need and accomplishment in education.

We have examined the account of the treasurer of the School District of Peterborough, N. H., for the year ending June 30, 1930. We have traced all recorded receipts into the bank and find all disbursements properly vouched and correctly recorded. The bank balance, as shown by the treasurer, was reconciled with the bank's statement dated June 30, 1930.

REPORT OF THE SCHOOL PHYSICIAN

CHARLES W. HARRINGTON, M.D.

New Hampshire requires a yearly examination of the heart and lungs of all students in its public schools. This was done early in the school year. No cases of tuberculosis were found. One serious heart lesion from a neighboring town was noted. A few with heart murmur, probably of a functional nature, were discovered, parents of whom were advised to consult with their physician in order that its cause might be located. Such heart disturbances, while not at first serious may become so if neglected. The condition of our students shows great improvement during the time school inspection has been carried on in Peterborough.

Parents cannot be too greatly urged to follow up any defects pointed out to them. However incomplete the examination made by the school physician may be, a more careful one made by a student's physician will be most valuable to the health of our students.

CHARLES W. HARRINGTON

**REPORT OF THE RED CROSS PUBLIC HEALTH
NURSE**

TO THE SCHOOL BOARD OF PETERBOROUGH, N. H.:

In cooperation with Dr. Charles W. Harrington I have examined all children enrolled in the Peterborough Public School System. The first grade children who had been enrolled in the Pre-School Center were examined at the Pre-School Clinic, previous to enrollment in the Public Schools this fall, and careful attention had been given to the correction of defects. This Pre-School Clinic, held under the State Department of Public Health in May, 1930, was open to all children in the town. Some of the mothers whose children were not enrolled in the Pre-School Center took advantage of this opportunity. The first grade children were, therefore, cared for either before the opening of the Public Schools, or not later than October of the present year.

A course in Home Hygiene and Care of the Sick is being taught two days a week to Juniors and Seniors in the Domestic Arts Course.

One hundred nine cases of defective vision were reported in the fall of 1930, and an eye clinic is still being held every two weeks at the office of Dr. Ralph E. Eaves. Thus far, 20 corrections have been secured.

The percentage of underweights is not so great as last year. The number was 99 last year, and only 82 were underweight this year. The serving of milk has proved very beneficial.

There are 181 cases of defective teeth; and but few corrections have been recorded. A dental clinic could well be provided.

There have been four corrections of defective tonsils in the School clinic held at Peterborough Hospital in the Christmas vacation. Another clinic will be held in June. There are still about 25 cases of defective tonsils.

Approximately 150 consultations with pupils have been held concerning correction of defects or temporary needs for first aid.

Application has been made to the State Board of Welfare for expert examination of the hearing of the pupils; and the Division for the Conservation of Sight and Hearing will care for this at an early date.

(Signed) RUTH T. PEARSON (Mrs.)
R. N.

School Warrant

*To the Inhabitants of the Town of Peterborough,
Qualified to Vote in District Affairs:*

You are hereby notified to meet at the Town House in said District on Wednesday, the fourth day of March next, at 7:30 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Treasurer for the ensuing year.
4. To choose two Auditors for the ensuing year.
5. To choose a member of the School Board for the ensuing three years.
6. To hear the reports of agents, auditors, committees, or officers heretofore chosen.
7. To raise and appropriate such sums of money as may be necessary for school purposes to complete the school year 1930-1931.
8. To raise and appropriate such sums of money as may be necessary for school purposes for the school year 1931-1932.
9. To choose agents and committees in relation to any subject embraced in this warrant.

Given under our hands this seventeenth day of February,
A. D. 1931.

*PETERBOROUGH HYMN**A. D. 1620*

God our Father!
 Glory, Lord, to Thee!
Before whose voice
 Is mute the thund'ring sea!
Through wind and foam
 Thou lead'st us home—
To Thee be glory through eternity.

Lord, hunger and cold are nigh!
Lord, not for ourselves we cry—
Let not our children die!
Silence your loud alarms
God is our shield from harms—
He will make strong our arms.
Christ, who hath calmed the wave,
Christ will uphold the brave.

Christ, our Saviour!
 Father of our Faith!
To Thee we bring faint hearts and failing breath,
 Be Thou our Guide!
 With Thee we bide,
To love, to labor, and to hope till death!

EDWARD MACDOWELL
